

Coaxial Cable Stripper

Cosmic 48R

The latest answer from MCM to today's ever-precision-demanding wire processing.

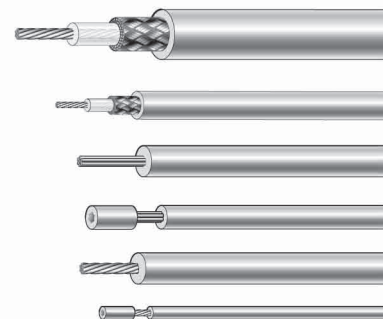

CE -RoHS Compliant-

US Patent No.6,508,148-B2
No.3748725(JP)

Features

- Extremely versatile with all-around high precision.
- Strips in up to 9 steps.
- Stores up to 1000 sets of processing data.
- Even-easier data management with PC interface (optional)
- Graphical display allows intuitive programming.
- 10-phase gripping strength for delicate adjustments.
- A compact, easy-to-handle benchtop model.

Cosmic 48R is a newly designed, all-around high-spec coaxial cable stripper. Boasting the latest digital control technology, this is MCM's answer to today's diverse needs for wire processing.

Technical Specifications

- **Workable Cable Types** : Coaxial cables, Multi-core cables, Standard cables
- **Stripping Length** : 0.01 - 40.00 mm
- **Stripping Diameter** : 0.01 - 8.00 ϕ mm
- **Stripping Steps** : Max. 9
- **Cable Gripping** : Motor-driven, 10 phase programmable
- **Production Rate** : 600 /Hr (Varies with programming)
- **Processing Data Capacity** : 1000 cables processing data
- **PC Interface** : RS232C
- **Noise Level** : 50 dB
- **Power Supply** : AC 100 - 240 V
- **Dimensions** : 136 x 580 x 260 mm
- **Net Weight** : Approx. 10 kg

(Specifications subject to change without notice.)

Note: Recommended to conduct a sufficient pre-purchase test, as exceptions may apply to some cable types.
